

Notice to all parents

As you are all aware we all face a significant challenge adapting to the new regulations enforced on us due to the COVID19 virus.

This has significantly impacted on how we are able to best serve/supply our customers with uniform requirements particularly due to the closure of changing room areas and the inability to 'try on' clothing and in addition the limited numbers we are allowed in our premises at any one time.

With this in mind I would encourage all parents to organise your uniform requirements for the new school year as early as possible and to take note of the size of current garments your child is wearing to best establish sizes required for replacement.

The most convenient option will be to purchase online and choose from either home delivery or collection in store.

Alternatively, if you do prefer to visit the shop premises please have a written list of requirements and our staff will gather all items on your behalf to allow a smooth and efficient process and furthermore adhere to the low numbers allowed into the premises.

Year 7 20/21 New starters

We are arranging an appointment system which will allow Year 7 pupils to be 'measured' to assist with sizing requirements. Appointments must be made by phone on 01244 816955. Once again please make contact as early as possible to avoid disappointment and guarantee uniform availability. We would ask that a maximum of one child & one parent attend.

On behalf of all of the team at Get Logod I would like to thank you all for your continued support and hope that by working within the restraints we currently have upon us, can enable us to provide a seamless supply as you have experienced in previous years.
